

Clients experiencing financial difficulties

On the 18th May 2020, the Financial Conduct Authority introduced new measures for insurance and premium finance firms to help clients in financial difficulty. Should you be experiencing financial hardship, or if things change at work or home, we may be able to help by:

- Re-assessing your demands & needs
- Reviewing levels of cover
- Adding or removing optional covers such as legal expenses
- Adding or removing people on your policy

Where amendments to your insurance cover does not alleviate your payment difficulties, you should contact your finance provider directly as further support may be available, which could potentially include:

- The possibility of deferring payments (refer to FAQ's)
- Reduced repayments, or rescheduled term
- Waiving missed or late payment fees
- Amending your repayment date without any cost
- Reducing interest payments

It is important that customers do not leave themselves uninsured, so we encourage you to contact us to discuss the options available if you are struggling to afford your payments during this uncertain time.
